

The PETALS™ Framework comprises five dimensions of practices that promote engaged learning in the classroom. The five dimensions and their key Concepts are:

Pedagogy: Student readiness, Learning styles, Existing knowledge

Experience of Learning: Stretching thinking, See inter-connectedness, Self-directed learning

Tone of Environment:Physical environment, Emotional environment

Assessment: Formative assessment, Summative assessment

Learning Content: Meaningful and relevant

The PETALS™ Framework is undergirded and supported by the School Ecosystem which includes four areas of Advocacy, Backing, Capacity Creation and Demonstration.
